ACADEMIC EXPERIENCE

Lone Star College   January 2023 – May 2023
Sound and Electricity
- Researched about how the musical instrument called Theremin, creates sound waves using the principles of electricity, capacitance and resistance. Built a basic Theremin and measured the length of the soundwaves it could create. Presented a poster at the Undergraduate Research Presentation Day

WORK EXPERIENCE

iCode Memorial   November 2022 – February 2023
Computer Science Instructor
- Gave classes to kids ages 9-13. The course was divided into different levels called "Belts." The Orange Belt included HTML, CSS, and JavaScript coding, which are the basis of web development, and the Green Belt focused on python coding, data science, ObjectOriented Programming, and an introduction to artificial intelligence

Mc Donald's
Kitchen Staff   August 2022 – December 2022
- Primary tasks include cooking, cleaning dishes, and other cooking equipment, and restocking supplies

Teleperformance
Viasat Customer Service   May 2021 – July 2021
- Contributed to help troubleshoot internet issues by understanding, documenting and resolving actual customer problems.
- Helped customers schedule service calls and provided payment assistance as applicable

ACTIVITIES

VOLTEC Robotics 6647   September 2021 – December 2021
Robotics Instructor
- Trained children ages 7 to 9 provided as part of the community service on behalf of the high school First Robotics Competition (FRC) team, as a way of promoting Science Technology Engineering and Mathematics (STEM) in my community

HONORS
- Dean's List Spring 2024
- The Honors College Presidential Award
